CAR SYSTEM®

Sanding Disc F.23 Ceramic

Film abrasive - 150 mm - 25 holes

V01
02/2024

Description

- High performance ceramic
- Carsystem 25-hole pattern and oval center hole
- Mineral grain mixture with ceramic content
- Strong, non-tearable foil carrier

Area of application

- Suitable for all sanding jobs from coarse to fine sanding

Benefits

- Extremely fast removal thanks to ceramic abrasive grain
- The ceramic sanding grain gives the disc a long life and high durability
- The stearate coating prevents the disc from clogging
- Foil carrier ensures a homogeneous sanding result

Product Data

Technical data

Diameter:	150 mm
Holes:	25 holes
Carrier material:	Polyester
Grain type:	Grain mixture with ceramic content
Grits:	P80, P120, P180, P240, P320, P400, P500, P600, P800

Safety issues

Directions for handling and waste disposal are in our Material Safety Data Sheet and the specifications of the Employers Liability Insurance Association for the chemical industry.

The before mentioned technical data and information, especially the recommendations for applying and using our products, are based on our current knowledge and experience when applied under normal conditions. In practice, the materials, surfaces or site conditions are so different that no warranty regarding the working results or liability, arising out of any relationship, can be inferred neither from this information nor from a verbal consultation, except we are charged with intent or gross negligence. In this case the user is obliged to prove that he has informed us about all points required for a proper and promising judgement in writing, in time and completely. Patent rights of any third party are to be observed. Furthermore, our general sales and delivery Terms and Conditions and the latest Technical Data Sheet, which should be demanded, apply.
